Clinton County Rabies Clinic Schedules - 2022

Protect your pet from rabies! Vaccination is mandatory in New York State for dogs, cats and ferrets over 4 months of age. Remember, your dog or cat can be vaccinated for rabies when it turns 3 months of age. One year after the first dose, your pet requires a booster, which is then good for three years. For the rest of your pet's life, it should have a booster shot every three years.

***ALL pets must be leashed or in a pet carrier.
Please bring your pet's shot records. Puppies and kittens must be at least 3 months old.***

Limit of 3 animals per household.

Info: (518) 565-4870

Cost: FREE

Time: 6:00pm - 8:30pm (for ALL active clinics below)

You MUST pre-register for any rabies clinic (see blue link below).

The pre-registration link will be posted two weeks prior to each clinic.
